This meeting is being recorded • *Esta reunion esta siendo grabada*

Project Location *Localización del Proyecto*

Proposed Project *Proyecto Propuesto*

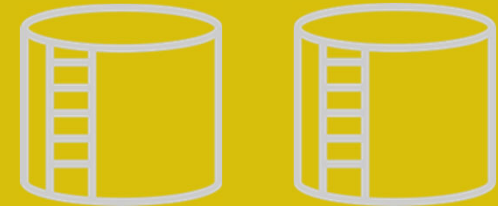

- Two New 25,000-Barrel Storage Tanks and Foundations
Dos Nuevos Tanques de Almacenamiento de 25,000 Barriles y Cimentaciones
- Tank Pumps
Bombas de tanque
- Pipeline connections to existing facility infrastructure
Conexiones de tuberías a la infraestructura de las instalaciones existentes
- Electrical conduit connections
Conexiones de conductos eléctricos

Project Objectives *Objetivos del Proyecto*

- **Increase the efficiency of World Oil Terminals' operations;**
Aumentar la eficiencia de las operaciones de World Oil Terminals;
- **Realign World Oil's storage capacity needs; and**
Realignar las necesidades de capacidad de almacenamiento de World Oil Terminals; y
- **Make existing tanks available for lease.**
Hacer que los tanques existentes estén disponibles para arrendamiento.

Project Alternatives *Alternativas de Proyecto*

Proposed Project *Proyecto propuesto*
Two 25,000 Barrel Tanks *Dos tanques de 25.000 barriles*

Single Tank Alternative *Alternativa de tanque único*
One 25,000 Barrel Tank *Un tanque de 25.000 barriles*

No Project Alternative *Sin alternativa de proyecto*

Environmental Issues *Cuestiones Ambientales*

Air Quality & Health Risk

Calidad del Aire y Riesgo Para la Salud

Less than Significant. Would not: conflict or obstruct implementation of air quality plan; result in cumulative increase of criteria pollutants; expose sensitive receptors to substantial pollutant concentrations; result in other emissions, such as odors.

Geology & Soils

Geología y Suelos

Less than Significant. Impacts associated with earthquake faults, ground shaking, seismic-related effects, unstable geological units, erosion or expansive soil would be less than significant.

Greenhouse Gas Emissions

Gases de Invernadero

Less than Significant. Would not: exceed AQMD significance threshold or conflict with an applicable plan, policy, or regulation adopted to reduce greenhouse gases.

Hazards & Hazardous Materials

Peligros y Materiales Peligrosos

Less than Significant. Impacts associated with routine transport, use, disposal, or accidental release of hazardous materials would be less than significant.

Hydrology & Water Quality

Hidrología y Calidad del Agua

Less than Significant. Risk of pollutant release due to inundation by flood or tsunami would be less than significant due to existing containment wall and air-driven pumps.

The CEQA Process *El Proceso de CEQA*
